

CAMPBELL COUNTY
TENNESSEE
1895 TAX RECORDS

Transcribed by Richard L. Chambers

Edited by Mitzi Price Freeman

INTRODUCTION

The 1890 Federal Census was destroyed in a fire in 1921. To bridge the twenty-year gap between the 1880 and 1900 censuses, researchers of Tennessee ancestors generally use the 1891 *Enumeration of Male Inhabitants of Twenty-one Years of Age and Upward* as a replacement. Unfortunately, the records for Campbell County are missing. Only the commissioner certificates have survived.

The following is a transcription of the 1895 Campbell County, Tennessee Tax Records as found in Roll #48 *Campbell County, Tennessee Trustee Tax Duplicates, Vol: Jan 1889-Dec 1898* available from the Tennessee State Library and Archives. The year 1895 was selected for transcription, because it was the first year in the set of records where the neighbors to the North, South, East and West were included in the original records. Although tax record forms for the previous years included space for this information, 1895 was the first year the tax collector recorded it.

The following information has been extracted from the original records:

- Name that appears on the tax rolls
- The name of the neighbor to the North
- The name of the neighbor to the South
- The name of the neighbor to the East
- The name of the neighbor to the West
- The number of Town Lots
- The value of the Town Lots
- The number of acres of land
- The value of the acres of land
- The district that the name appears in
