

Toy H Watson

Toy Watson was born on May 9, 1915 and died July 5, 1915. He was a son of Hershel L Watson (1888-1975) and Pearl (Tisdale) Watson (1886-1957).

The disinterment information states that Toy Watson died in 1917 but does not give a birth date. It also records his father H L Watson as being present at his disinterment. There are conflicts in these records since Toy's headstone plainly says 1915-1915. It also states that H L Watson was buried at the same cemetery (Alpha Watson) but since he lived until 1975 it doesn't seem logical for him to be buried there, because Mt Holly had been created long before his death.
